						• Duke Wortmann framed the report as a conversation rather than a presentation. The agenda included: Facility Needs Review, What we need..., High Schools, Potential Bond Scenarios, Discussion, and Next Steps.	
						• Committee members in the audience were acknowledged and thanked for their work, and the District's demographer, Shannon Bingham, was acknowledged for his expertise and input.	
						• Discussion included the following areas: maintenance needs, new buildings, the Fruita 8/9 School, curriculum, enrollment projections, grade-level transitions, boundaries, smaller high schools, land currently owned by the District, full-time kindergarten, "green schools," demographics, classrooms, technology, and the need for additional information.	
						• Additional research will be provided to the Board, and a report from the Long Range Planning Subcommittee on School Size will be scheduled for a future meeting.	
						• Dr. Mills emphasized that the Committee's report, along with information which will be collected from an upcoming community poll and focus group work is for study and feedback. Possible action by the Board would need to take place in the later part of August.
